Mamma Foundation (FMBBM)

## ARE YOU THINKING ABOUT HAVING A BABY?

Since the period before pregnancy it is possible to receive health consultancy services and information about healthy lifestyle behaviors. In particular:

- Gynaecological Preconception Check-up
- Genetic Counselling
- Diagnostic and Treatment Service for couples with fertility issues
- Reproductive Endocrinologist Check-up
- Check-up /counselling for couples suffering from "Recurrent Miscarriage Syndrome"
- Preconception and pregnancy counselling for with an oncological pathology

## ARE YOU PREGNANT? ARE YOU CHOOSING YOUR DOCTOR??

Pregnancy is an important moment in the life of every woman and during the perinatal period it is essential to receive information and treatment from psycho-socio-health professionals who can offer you:

- Obstetrics checks during pregnancy
- Prenatal diagnosis
- Obstetrical Ultrasound
- Social counselling
- Psychological support

## DO YOU WANT TO TAKE PART IN CHILDBIRTH ASSISTANCE COURSES?

The Childbirth Assistance Courses represent a support for pregnancy, childbirth and parenting. They are usually organized in small groups. The participants are pregnant women, alone or with their partners.

## ... AND THE BIRTH IN HOSPITAL?

We will take care of you during the hospitalization by offering:

- personalized assistance
- support and management of pain with non-pharmacological and pharmacological techniques

(Epidural Analgesia)

- Donation and Storage of Umbilical Cord Blood

In the immediate post partum an early mother - child proximity is favored for the promotion of the emotional bond and breastfeeding that continues during the stay with the rooming-in, the stay of the child in the room with the mother.

## ONCE AT HOME, WHAT SUPPORTS DO YOU HAVE?

The postpartum period is a special phase in the life of both child and parents that involves personal and social aspects.

In days after the discharge, the regional services offer a constant assistance in supporting breastfeeding and parenting through:

- New-born check-up
- Post – partum gynaecological check-up
- Breastfeeding Area
- Psychological support
- Giving a massage to your new-born baby
- Social counselling
- Mother-child groups

For more information you can consult the Charter of Services available on the site and in all social and health facilities.

A linguistic and cultural mediation service is available throughout the journey to birth and post partum.
